

# NARROW BIKE LANE DEFENDER

Length: 6.5 ft  
Width: 9.25 in  
Height: 5 in  
Weight: 132 lbs

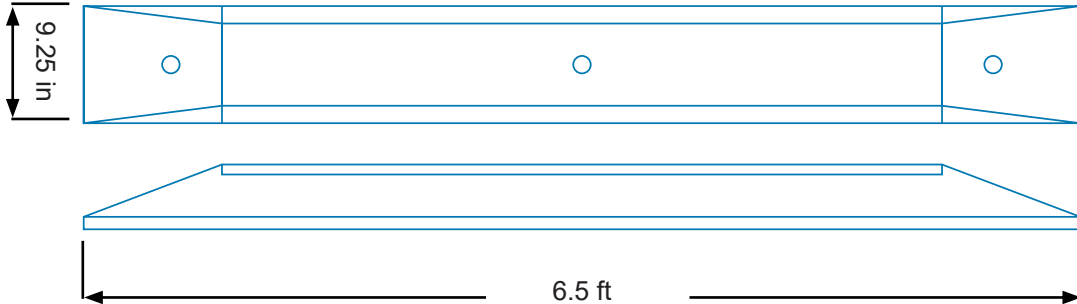

## BENEFITS

US Reflector's Narrow Bike Lane Defenders are substantial solid rubber units which replicate curb height, making them ideal for creating fully segregated bike lanes where roadway width is limited.

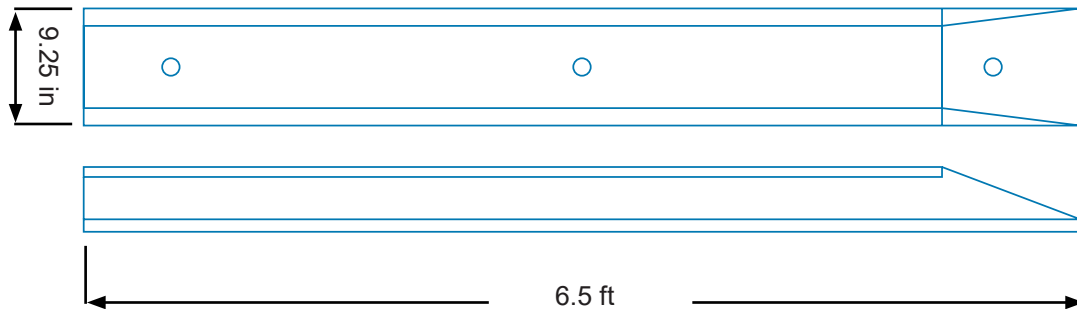

- High contrast color scheme ensure good visibility in all light conditions
- Substantial units offering excellent stability and impact absorption
- Accommodates a wide range of third party bollards
- Made from recycled tire rubber
- Standalone, intermittent, and continuous configuration options
- Highly reflective with integrated glass eyes
- Quick and easy to install
- No excavation – minimize disruption and cost

Engineered for rapid installation in bike lanes of any scale. The flexible rubber material accommodates curves and curves while effectively absorbing impacts, creating safe and secure spaces which encourage biking regardless of traffic levels.

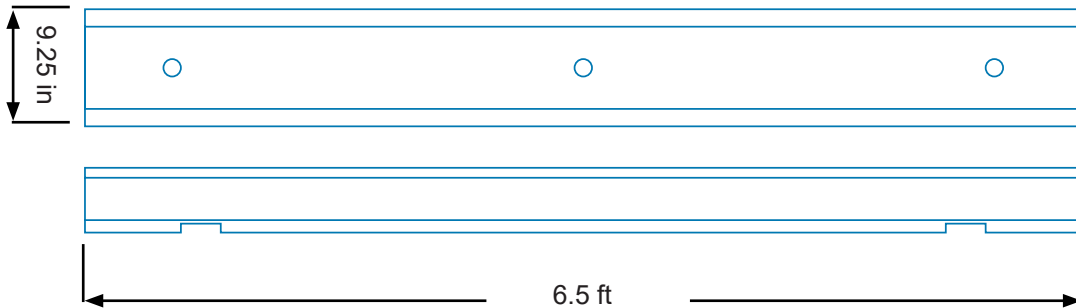

## DOUBLE RAMP NBL-01

## SINGLE RAMP NBL-02

## CENTRAL UNIT NBL-03

Manufactured from recycled tire rubber and polyurethane.  
Delivered with installation anchors
